

POLITIKA OKOLINSKOG UPRAVLJANJA

J.P. Međunarodni aerodrom „SARAJEVO“ d.o.o. Sarajevo opredijeljeno je da:

- Upotrebom savremenih organizacionih, tehničkih i tehnoloških rješenja poduzima sve mjere za sprečavanje zagađenja, smanjenje emisija i recikliranje otpada;
- Kontinuirano poboljšava učinkovitost Sistema upravljanja okolinom sa posebnim akcentom na upravljanje emisijama carbon-dioksida (CO₂), u cilju smanjenja emisija;
- Kontroliranim načinom upravljanja racionalno koristi materijale i neobnovljive resurse, te korištenjem najboljih praksi unapređuje svoj sistem;
- Poboljša energetske performanse pri svim aktivnostima projektovanja i razvoja;
- Identificira značajne okolinske aspekte kroz analizu i procjenu rizika te upravlja rizicima visokog ranga i svodi ih na prihvatljiv nivo kroz adekvatan plan za tretman rizika;
- Postiže usklađenost u svom radu sa svim zakonskim i drugim preuzetim obavezama vezanih za okolinsko upravljanje;
- Bude odgovoran i prihvatljiv susjed lokalnoj zajednici, te otvoren u komunikaciji sa zainteresiranim stranama o svojim djelovanjima na okolinu;
- Zaposlenicima omogućava sticanje potrebnih znanja te ih potiče da prepoznaju i iskoriste prilike za povećanje uspješnosti u zaštiti okoline i upravljanju otpadom u području njihovog djelovanja;
- Promovira stalno unaprijeđenje Sistema upravljanja okolinom;
- Ispunjava zahtjeve međunarodno priznatog sistema okolinskog upravljanja EN/ISO 14001.

ENVIRONMENTAL MANAGEMENT POLICY

P.C. „SARAJEVO“ International Airport LLC Sarajevo has committed itself to the following:

- Use contemporary organizational, technical and technological solutions to prevent pollution, reduce emissions and recycle the waste;
- Continuously improves the efficiency of the Environmental Management System with a special emphasis on the management of carbon dioxide (CO₂) emissions, with the aim of reducing emissions;
- Use materials and unrenovable resources economically due to controlled management and to upgrade its system using best practices;
- Improves energy performance during all design and development activities;
- Identify major environmental aspects through analysis and risk assessment and manage high risks in a way to reduce them to acceptable level implementing an adequate risk treatment plan;
- Achieve compliance of its activities with all legal and other environmental management related obligations;
- Be responsible and eligible neighbour to the local community and open for communication with the parties being interested in its impact to the environment;
- Encourage its employees to gain necessary skills to increase efficiency in environmental protection and waste management within their sphere of action;
- Enable continual improvement of the Environmental Management System;
- Meet requirements of globally recognized Environmental Management System EN/ISO 14001.

Sarajevo, 20.03.2024.
